1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Before the first line of the specification please insert "This application is a continuation of 10/105,723, filed 3/27/02 and now US 6,623,711, which is a CIP application of 09/895,158, filed 7/2/01 and now 6,660,822."

2. The following is an examiner's statement of reasons for allowance: The instant claims are neither taught nor suggested by the prior art. The prior art references each prepare a cured coating composition from the siloxane and silane reactants. Such a cured composition distinguishes itself from claim 1 in that one cannot determine the molecular weight thereof. In addition, there is no motivation to adjust and/or optimize the molecular weight of such a cured composition. Paragraph 5 of the office action dated 9/10/04 addresses the novelty and unobviousness of claim 3. The terminal disclaimer filed 8/2/05 overcomes the obviousness type double patenting rejection made in the previous office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday to Wednesday and Friday, 10am to 4pm.
